2. Overview of the 3 Distinct Tree Engines

Matrix Tree Name	Architecture & Algorithm	Entry Trigger & Cost	Commission & Payout Formula
Tree 1: Join Prime 5-Matrix	5 × N Global Forced Spillover BFS Level-Order placement across company.	₹750 Join Prime / ₹250 Self Rebirth	₹30.00 per level upline to 6 levels. 100% Non-working passive spillover.
Tree 2: Join Prime 3-Matrix	3 × N Global Forced Spillover Fast-filling 3-leg company-wide tree.	₹750 Join Prime / ₹250 Self Rebirth	₹10.00 per level upline to 15 levels. 100% Non-working passive spillover.

SELF REBIRTH LIFECYCLE & GRAND MASTER FINANCIAL RECONCILIATION

Exact Mathematical Derivation of 489 Rebirths & 100% Zero-Leakage Financial Proof

1. Self Rebirth Calculation: How 489 Rebirths are Generated

As Root User (U0) earns commissions from 20 directs purchasing the ₹2k package and all 10 rank upgrades, the 25% Self Account Pocket accumulates ₹122,450.00:

STEP 1: Earnings Inflow	STEP 2: Auto-Trigger Calculation	STEP 3: Matrix Re-Injection
Root (U0) Gross Earnings: ₹489,800.00 • 75% Main Wallet: ₹367,350.00 (Cash Out) • 25% Self Pocket: ₹122,450.00 (Reserve)	Every ₹250 in Self Pocket automatically spawns 1 Rebirth ID: ₹122,450 / ₹250 = 489 REBIRTHS	Each of the 489 Rebirths creates: • 1 New Seat in 5-Matrix • 1 New Seat in 3-Matrix • ₹40 Direct Sponsor to U0 • ₹15 Franchise/Tax Pool • Feeds upline autopool to downlines!

2. Grand Master Financial Reconciliation (₹1,005,000 Total System Inflow)

3. Key Conclusions & Summary Insights

- Every Tree is Independent:** The ₹750 Join Prime feeds Tree 1 (5-Matrix) and Tree 2 (3-Matrix). The ₹250 e-Edu feeds Tree 3 (Personal 5-Matrix). The ₹1,000 SPP feeds the 1st Month matrix positions and monthly pool vouchers.
- Spillover Drives Retention:** Downlines U1 to U5 earn passive income immediately from Tree 1 (₹90 each) and Tree 2 (up to ₹110), proving the forced matrix mechanics.
- Self Rebirth Flywheel:** The 489 automatic rebirths will continuously inject fresh seats into both Tree 1 and Tree 2, pushing thousands of rupees in recursive autopool bonuses back to all active and passive members.
